## Projects (Built Using Flutter)

- Azkar App:** Developed an app for daily supplications, improving user engagement with daily reminders.
- Crevel :** A Flutter-based mobile app developed by me and my team for a company offering digital services like marketing and web development. We carefully planned how to present the company's services in the most effective way to attract clients and maximize sales, delivering a clean and user-focused interface for browsing and requesting services.

- **Laptop Store** : A Flutter-based mobile app I developed for a laptop store, designed with a clean and attractive interface to showcase products effectively. The goal was to create a smooth and engaging shopping experience that helps the store owner increase sales and reach more customers.
- **Group Chat App**: Developed an application enabling real-time communication through group chats.
- **Nota App**: Simple notes app that lets you access your notes from anywhere using your email.
- **Basic Calculator App**: Created a basic calculator application with a user-friendly interface.
- **Food App**: Modern UI for a food ordering app.
- **Plant App**: Modern UI for a plant-selling app.
